

Butler Farm Community Garden

The season start date is dependent upon the weather. A committee member will keep gardeners updated on the status and start date for planting.

If you abandon your plot for any reason, please notify the garden committee by email at butlerfarmcommunitygarden@gmail.com.

I have read the **organic gardening guidelines** and I agree to not use synthetic fertilizers and pesticides.

I will keep my plot weeded and harvested throughout the season.

I will remove all trash and non-compostable refuse from my garden each time I leave.

I will use only structures and materials that can be removed at the end of my garden tenure.

I will consult with my garden neighbors to insure that only a single fence separates our plots.

I will not plant invasive plants and be considerate with my plant choices and placement.

I will participate in the fall cleanup of the garden. The garden plots need to be cleared by October 31st. Any weed barrier must be removed by this date.

I will harvest only my own crops unless given permission by another garden member.

Children are welcome with adult supervision. No pets are allowed in the garden.
