

## **Section 2. Scope**

This Chapter shall apply to all institutions in the Town of Millbury, which experiment with or use RDNA technology.

## **Section 4. Regulations**

All experiments with and uses of RDNA by institutions within the Town of Millbury shall be undertaken only in conformity with regulations established herein and with current and applicable NIH Guidelines as promulgated in the Federal Register and as may be amended from time to time by the NIH or by any successor agency.

## **Section 5. Administrative Requirements**

Each institution in the Town of Millbury which experiments with or uses RDNA technology shall comply with the administrative practices set forth in the NIH Guidelines, including but not limited to the following:

1. The establishment of an Institutional Biosafety Committee (IBC) which shall contain at least five (5) members, of whom at least two (but not less than 20%) shall not be affiliated with the institution and shall represent the interests of the Town of Millbury, with respect to health, safety, and welfare, and the protection of the environment. One member of the Board of Health appointed by its membership shall serve on said committee.
  - a. The IBC shall contain at least one (1) representative from the institution's biotech staff.
  - b. The non-affiliated representatives on the IBC shall be appointed by the Board of Selectmen, with notice to the Board of Health.
  - c. The non-affiliated representatives on the IBC shall have backgrounds in medicine, occupational health, engineering, public safety, environmental sciences, or other similar disciplines.
  - d. The non-affiliated representatives on the IBC shall be bound by the same rules prohibiting use and disclosure of proprietary information and trade secrets as other members of the IBC.
  - e. The IBC shall establish a set of rules and administrative procedures governing its operations in accordance with NIH Guidelines.
